

WEEK 14 - FIVE POINT STAR

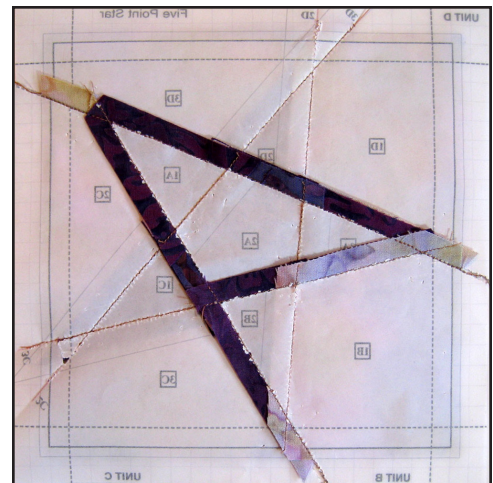

Template Piecing

Leave outer edges (where the black dashed lines extend to the edge of the paper) untrimmed until the units are assembled.

Press as shown in the diagram below. Then square to 5".

CUTTING FABRIC PIECES

Print page 3 on adhesive label sheet or trace onto freezer paper to make templates. Use the Cutting List to rough cut fabric pieces, or simply place the templates on the yardage and add $\frac{3}{8}$ " seam allowance to all sides. I used clear adhesive labels so I could fussy cut the center.

PIECING THE BLOCK

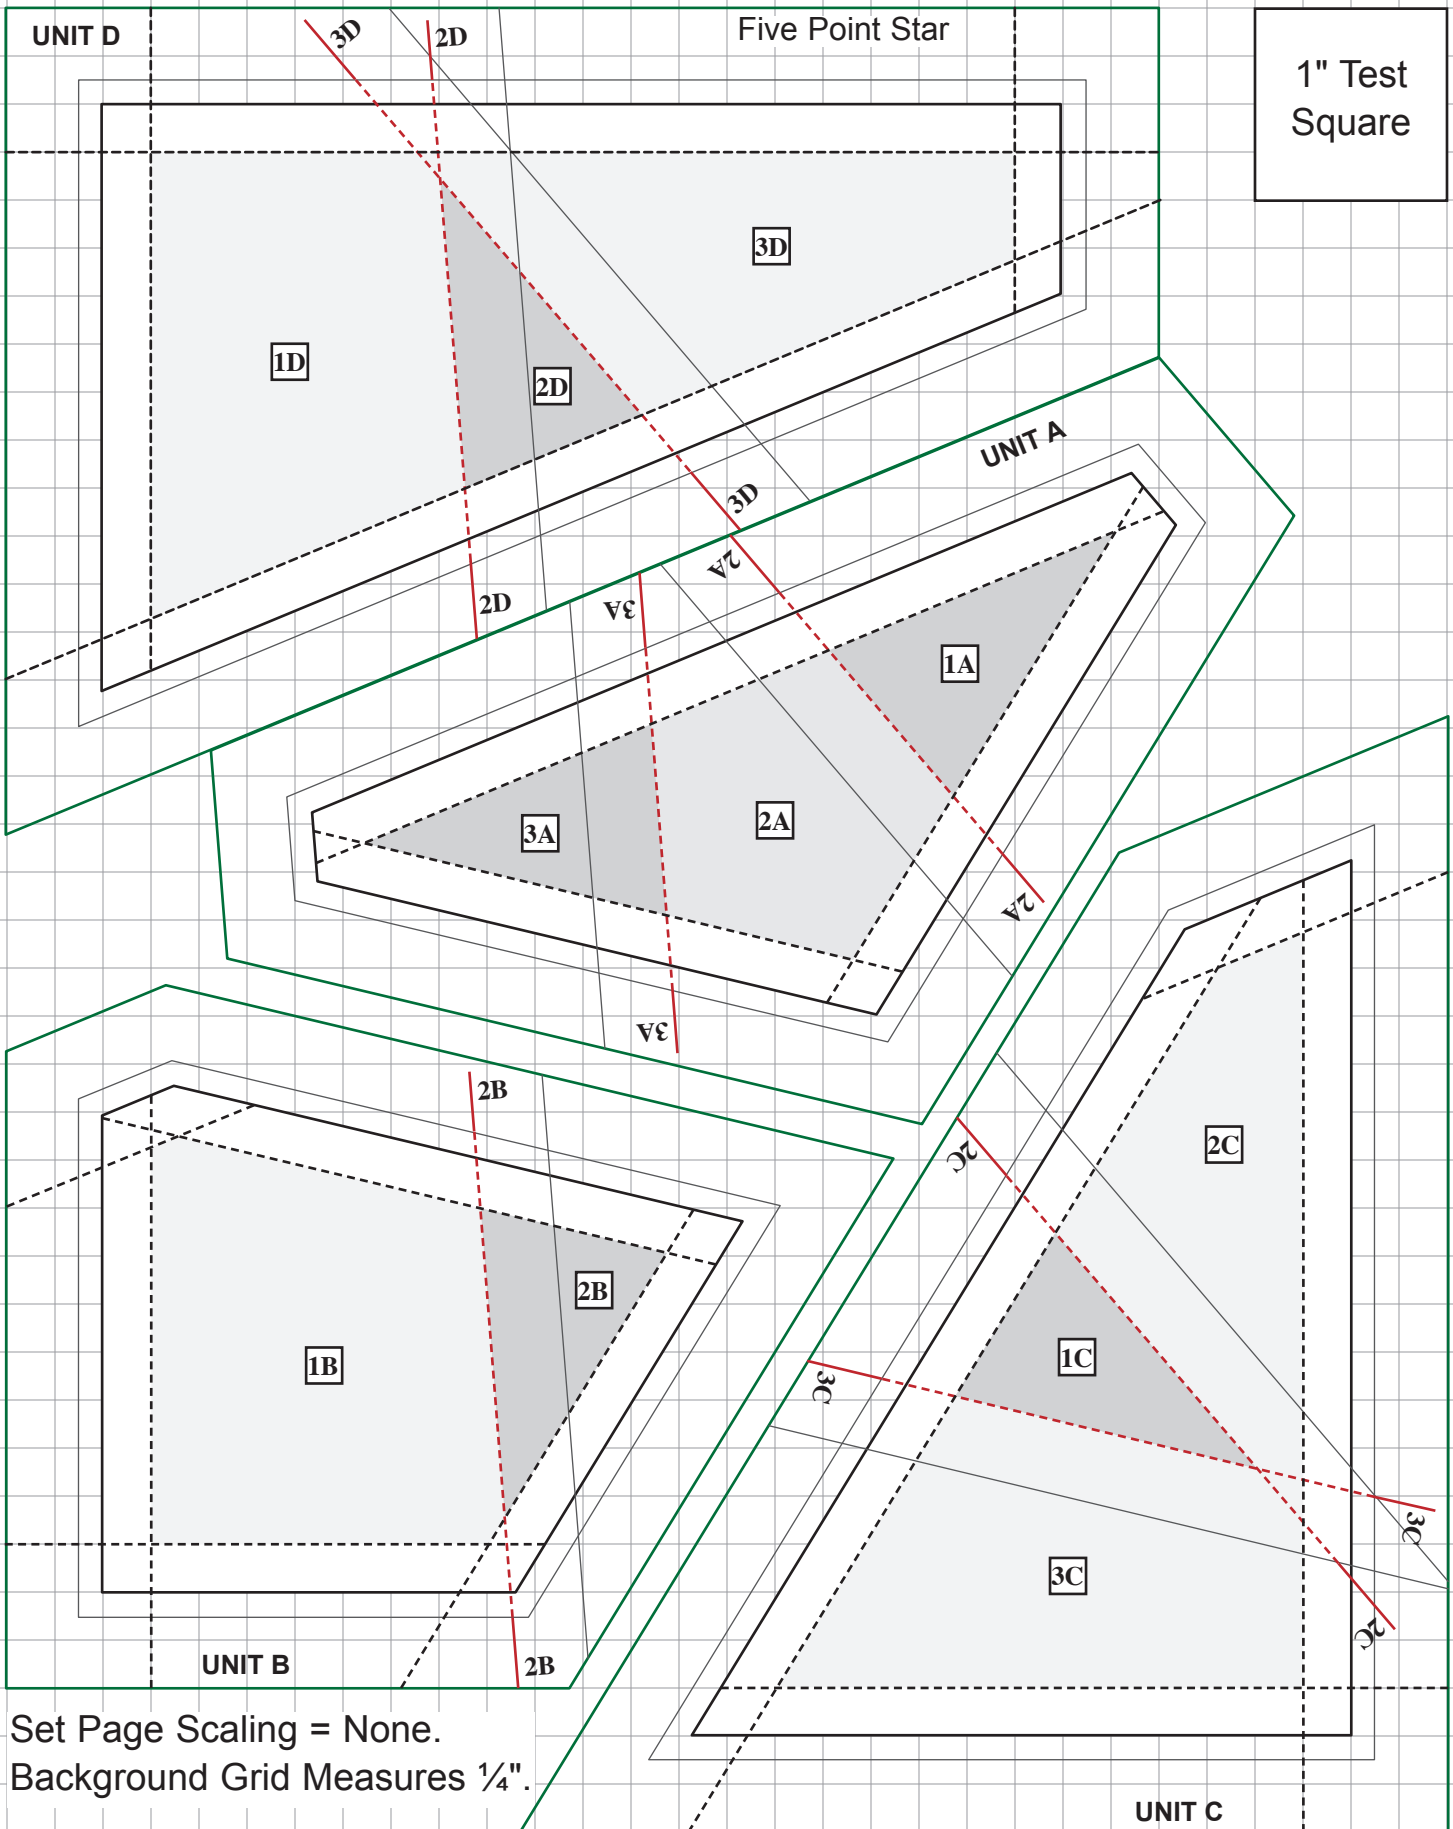

Refer to Week 1 General Instructions, Week 3 - Letter A, and Week 4 - A Snowflake to piece the block.
